we specialize in teen girl and women's entertainment for delivery on mobile, PDA, Internet and handheld game platforms.

Situation Overload: **DUST!**

Fight DUST - the eternal evil!

Our hero Annie must save her home and family from an evil attack by billions and zillions of dust specks that relentlessly threaten to smother her family. It's a humorous twist on the ever-popular alien/invaser attack games wherein the chore of dusting is turned into a life and death battle!

Game Play

Silly, fun and addictive.

Level 1

Use the dust wand to zap the specks of dust. Dust that lands on the floor turns into dust piles that grow toward the ceiling. If a pile reaches the ceiling - it's game over - the dust has smothered the family.

Level 2

The dust is fast and furious. Zap the *red dust* to earn your new tool - the handy mop. Now you have the power to sweep the dust piles away.

Level 3

Watch out for the evil Dust Bunny who hops out and grows the piles by putting more dust *under* them. Zap *orange dust* to earn the almighty vacuum bag. Rejoice as you suck up that wicked wabbit.

Marketing Notes

Free sample version (Flash application) of Level 1 located at www.womenwise.com web site and/or carrier deck. Complete marketing campaign.

White Label

License available and perfect for product placement. Sequel titles to come with advanced game play.
